- ♦ London is the capital of England. There are so many things to see in London such as Big Ben, London Eye, Buckingham Palace, Westminster Abbey

- We went to London, and our hotel was like 15 minutes from the center. The first day that we went to London, we wanted to see the big ben and the London Eye. When we went to Big Ben, we saw that the big ben was under contraction; unfortunately, we could not see it exactly how it was. But it was a great experience to go and see it from far.

- The huge clock that is called the Big Ben in London was made in December 1923 and is there till those days. The tourist is coming to London to see the big ben. The diameter of the clock is seven meters.

- we show the red box telephone that is so famous in London but mostly don't work but are there for decoration.

- The next few days we were walking in London to see everything. We also did a tour, and the tour guy was informing us about the important places we can see in London and was giving us different information about each of the areas that we saw. We also went to Buckingham Palace where Queen Elizabeth stays.

- Queen Elizabeth stays in the Buckingham Palace. We know when the Queen is inside the palace because on top of the palace they raise the British flag.

- We went to the Abbey church, which was beyond incredible; the architecture inside was unbelievable. The Westminster Abbey church opened in 1019. This church was known as the "house of kings". In this church both queen were crowned, The 1 and the 11 Queen Elizabeth. Also, all the royal and many monarchs who have died have been buried under this church.
